Reading- 15			
<p>6. Read the following passage and answer the questions.</p> <p>Co-operation means working together for the <i>benefit of</i> all. Without co-operation modern society could not exist. Co-operation has been seen at its best among farmers in the dry <i>regions</i> of certain parts of Australia and America. The fields have been <i>irrigated</i> in these regions. Crops cannot be grown without water. Water cannot be brought to the fields without streams being <i>tapped</i> higher up. For this purpose canals and <i>dams</i> have been built. The canals have been cut through the fields of more than one farmer. Those who live higher up the valley than the others have allowed canals to be built through their land in order to carry water to the fields of farmers lower down. In times of <i>drought</i> all are able to share the water. Instead of taking all the water for themselves, the farmers on the higher <i>land</i> leave enough for their neighbours down the valley. Farming <i>in dry</i> areas has been <i>made</i> possible by such cooperation. By co-operation farmers have learned to make even the desert produce crops.</p>			
<p>A. Find words in the passage to complete the following sentences.</p> <p>i. The key to success in any field is _____.</p> <p>ii. _____ can be used to store water for future use during times of drought.</p> <p>iii. In the dry _____ of America co-operation amongst farmers is necessary.</p> <p>iv. _____ can cause significant damage to crops and agriculture.</p> <p>v. Building _____ and dams is essential for irrigation in many parts of the world.</p>	2	U	1×5=5
<p>B. Answer these questions.</p> <p>i. What would happen without co-operation?</p> <p>ii. In which areas has co-operation been seen at its best?</p> <p>iii. What have the farmers done in the dry regions to irrigate the fields?</p> <p>iv. How have the canals been built in the dry regions?</p>	2	U	1×5=5
