About IIUC Accounting Forum

It all started back in Spring 2012 when the first batch of Major in Accounting sailed its journey. A total of 28 enthusiastic students guided by some dedicated mentors kicked off a legacy that is being carried on by four consecutive batches till now.

It is worth mentioning that a professional training on Accounting software “QuickBooks” has been an inseparable part of Major in Accounting since the beginning, both at male and female campus.

Our first magazine “AIS Pamphlet” was published in Spring 2012. The publication was followed by the establishment of a great initiative-“IIUC Accounting Forum”, which is headed and guided by our honorable faculty members. This forum opened the gateway to establish a common platform for both teachers and students.

We are glad to announce that, we have successfully managed to prepare ‘AIS Directoy’, a database of all our Accounting major students and teachers as well, which we believe will give wings to the communication among teachers and students.

IIUC Accounting Forum is a garden which is decorated by some highly dedicated and devoted students who find Accounting as a subject that integrates moral values, rather than just a profession. It aims to comply with the moto of IIUC as a whole where quality is combined with morality.
