1. General Information

BACKGROUND

International Islamic University Chittagong (IIUC) is one of the top-ranking Government approved Private Universities in Bangladesh. The credit for the idea of establishing this University goes to ISLAMIC UNIVERSITY CHITTAGONG TRUST (IUCT) which is the founder organization and sponsoring authority of the University. This Trust is a non-political, non-profit oriented voluntary organization, registered with the Government of the People's Republic of Bangladesh under the Societies Act XXI of 1860. This Trust felt the need for a University under private initiative in view of absence of institutions of higher learning based on Islamic vision of life in the public sector. Based on an idea, which had its origin in 1990, the Trust discussed the concept of a Private Islamic University with a group of intellectuals, Islamic thinkers, researchers and educationists, at home and abroad. It was these Islamic personalities who came forward to materialize the idea of such an institution by putting together their ideas, energies and financial response. In 1992, they established an anchor organization called Islamic University Chittagong Trust (IUCT). Under the aegis of this body, and by the Grace of Allah (SWT) Islamic University Chittagong got the Government's approval on February 11, 1995 and the University was founded in the same year accordingly. Thus, a long-cherished dream of the people of Bangladesh came into reality.

LEGAL ASPECT

The founding of International Islamic University Chittagong was made possible by the passage of a historic Act of Parliament in 1992 - "The Private University Act, 1992." In the history of the development of the institutions of higher education in Bangladesh, this Act, for the first time created opportunity for establishing of Universities in the private sector, subject to clearance of their academic curricula and syllabi by the University Grants Commission (UGC) of Bangladesh and thereafter, final approval by the Government of Bangladesh.

Having fulfilled the requirements as laid down in the Private University Act of 1992, and after obtaining the necessary clearance from University Grants Commission (UGC), and the permission of Government of Bangladesh (GOB) through the Ministry of Education, Islamic University Chittagong (IUC) started functioning in 1995 with three Faculties, e.g. Faculty of Shar'iah & Islamic Studies, Faculty of Modern Sciences and Faculty of Administrative Sciences.

IIUC framed its own Statutes, Ordinances and Regulations governing the manifold activities of IIUC - academic, administrative, financial, student welfare, discipline etc. as per the Private University Act, 1992 and revised Act, 2010. Most statutory bodies formed under the provisions of the Act have since been functioning.

The Charter of IIUC as framed within the provisions of the Act and as approved by the Government empowers the University to confer degrees in various disciplines.

MISSION OF THE UNIVERSITY

VISION OF THE UNIVERSITY

The Vision of the University is to offer nationally competitive and internationally recognized opportunities for learning to make this University as the Centre of Excellence in different areas of scholarship, like Shari'ah and Islamic Studies, Business Studies, Social Science, Science & Engineering, Arts & Humanities, Law, and such other faculties that will be introduced in future. 7. Academic System

7.1 Academic Calendar

Each academic year is divided into 2 Semesters, each having a duration of 15 weeks (5x15=75 working days). There shall be Mid-Term Examination after conducting classes for 6 weeks. After Mid-term examination and conducting classes for 9 weeks, Final examination will be held. Normally Spring Semester commences in January and Autumn Semester in July.

7.2 Registration after Admission

All admitted candidates are required to complete the registration after admission within the stipulated period for the specific semester in which they want to enroll. Students who have been issued an offer of admission may apply to defer the registration for maximum one academic year (i.e. 2 Semesters). The period of deferment will not be included in the total duration of their studies.

7.3 Duration of Study

A Bachelor Program is normally completed in four academic years (i.e. 8 Semesters). However, by registering additional number of courses in regular semesters, students may also complete their studies within a shorter period of time and thus, they may graduate earlier. However, at least three academic years (i.e. 6 Semesters) of regular studentship is required for graduation. A student may also be allowed to complete a Bachelor Program within six academic years (i.e.12 Semesters) including drop period/Semester/s.

7.4 The Credit Hour System at IIUC

To make the academic system to international standard, IIUC follows Open Credit Hour System (OCHS) based on a quantified curriculum, whereby a certain number of credit hours are assigned to each course. Students are required to complete successfully the total number of credit hours stipulated in the program requirements in order to graduate. The number of credit hours assigned to each course denotes the academic load that a student carries while registering for that course. Therefore, a course that carries three credit hours normally has 3 (three) contact hours per week. However, there are courses which do not tally with the contact hours or for which no credit hours have been assigned. Such courses are normally not a part of the main curriculum of the department. These are parts of the General Education Courses (GED) such as language courses etc.

7.5 Grading System

IIUC follows the uniform grading system for evaluating the academic performance of the students as given below.

Marks (%)	Letter Grades	Grade Points	Remarks/ Status
80% or above	A+	4.00	Excellent
75% to less than 80%	A	3.75	Very Good
70% to less than 75%	A-	3.50	
65% to less than 70%	B+	3.25	Good
60% to less than 65%	B	3.00	
55% to less than 60%	B-	2.75	Satisfactory
50% to less than 55%	C+	2.50	
45% to less than 50%	C	2.25	Pass
40% to less than 45%	D	2.00	
less than 40%	F	0.00	Fail

- N.B.: i. Each student shall have to obtain at least GPA 2.00 in each Semester.
 ii. To have graduation degree, a student must obtain at least CGPA 2.50.

7.6 Grade Point Average (GPA) & Cumulative Grade Point Average (CGPA)

The Grade Point Average (GPA) is computed by dividing the total grade points earned by the number of credit hours attempted in a given semester. The Cumulative Grade Point Average (CGPA) is computed by dividing the total grade points earned by the total number of credit hours attempted at the University up to a particular semester.

Obtained grades do not just reflect their performance in the Semester Final Examination but are also based on a number of Assignments, Quizzes, Class Tests, Case Study and Mid Term Examination etc that are conducted throughout the semester.

7.7 Evaluation System

IIUC evaluates the students' performance in the Following ways:

Attendance	10%
Class Test & Assignments	10%
Mid-term Examination	30%
Final Examination	50%
Total	100%

8. Academic Policies and Procedures

8.1 Course Registration

All students are required to register courses by filling up the online Registration Form through IIUC Website in each semester until they have fulfilled all graduation requirements. Without registration, credits will not be counted. The date and time of registration are provided in the Academic Calendar and a notice of registration is circulated by the Office of the Controller of Examinations. All students must complete their registration within the workload / schedule given in consistence with the range of GPA of the immediate past semester and abiding by the work load policy (Section 8.2). Payment for registration is to be settled as per instalments and periods, mentioned in the notice.

They may also seek help from their advisors in planning their semester workload, registering courses and other academic activities.

Minimum workload for a regular semester is 12 credit hours or its equivalent and maximum load is up to 24 credit hours. Since IIUC is following the Open Credit Hour System, a student may register the expected number of credits with the recommendation of his/her respective academic advisor and the approval of the Chairman of the Department or the Dean of the Faculty or the Pro Vice-Chancellor as the case may be. But semester workload must be consistent with the range of GPA and the allowed workload policy.
