“আমি মানুষকে মাটির সারাংশ থেকে সৃষ্টি করেছি। অতঃপর আমি তাকে শুক্রবিন্দু রূপে এক সংরক্ষিত আধারে স্থাপন করেছি। এরপর আমি শুক্রবিন্দুকে জমাট রক্তরূপ সৃষ্টি করেছি, অতঃপর জমাট রক্তকে মাংসপিণ্ডে পরিণত করেছি, এরপর সেই মাংসপিণ্ড থেকে অস্থি সৃষ্টি করেছি, অতঃপর অস্থিকে মাংস দ্বারা আবৃত করেছি, অবশেষে তাকে নতুন রূপে দাঁড় করিয়েছে। নিপুনতা সৃষ্টিকর্তা আল্লাহ কত কল্যাণময়। এরপর তোমরা মৃত্যুবরণ করবে। অতঃপর কেয়ামতের দিন পুনরুত্থিত হবে।”

At the very outset, I would like to express my heartfelt gratitude to the Almighty Allah (SWT) who has enabled us to publish a souvenir on the occasion of IIUC DBA Alumni Reunion 2018. I also extend my appreciation to all the alumni who have wholeheartedly worked to make the relic a reality. I must acknowledge the spontaneous response from the alumni of the department.

It is always a matter of great pleasure for all the alumni to come back and spend some time with their alma mater. People often become nostalgic when they return to their ex-university. But here the things are a bit different. The location and buildings of the university are entirely new for a good number of Alumni I hope, they will enjoy the growth of the university to more matured form. In addition to reuniting with classmates and friends, the Reunion will provide myriad opportunities for networking, learning about university programs and priorities, and a chance to once again experience some of the dictums of IIUC.

The many highlights of the past success of our alumni are well documented – none of them happened by accident. The achievements of the department during the years are the result of the vision and excellence of the founders, administrators, teachers and Staff and the response and spirit of the students who are encouraged to shine their light.

We have tried our level best to make the souvenir flawless, useful and most appropriate for the alumni of the department. In spite of our earnest efforts, some unintentional mistake or omission may remain present in this publication. I apologize for any such errors.

It is with great pleasure that I welcome you to the first Reunion of the alumni association of Department of Business Administration to be held on 13 April 2018. A program, such as the one that we are going to organized, has long been wished for by all of us. The important thing, all the same, is that it has taken place at long last! I hope very much indeed that your presence will make this occasion a truly successful one in all respects and that you will find it a day worth enjoying and, of course, remembering.

This day of celebration was long awaited, but it could not have taken place had I and my team members not been helped by a very large number of people, alumni and non-alumni, to all of whom our thanks are due. There are first, the local alumni, those who live or are posted here, and who as members of the organizing committee supported us in various ways by being unsparing of their time and efforts. In addition to the alumni in Chittagong, many others all over the country formed small working groups and did their best to inform their friends and colleagues of the approaching event to maximize today's attendance.

Besides that, there have been other individuals as well as commercial entities who, by contributing to our efforts to raise funds, have made this event possible. I gratefully acknowledge their assistance. I also extend my gratitude and thanks to the authority of IIUC for all the help and co-operation in organizing the program.

On behalf of the organizing committee, I bid all of you, and your accompanying spouses and family members, a hearty welcome once again and expect that your stay here will be pleasant and cheerful.

I am delighted to learn that Alumni Reunion of the BBA, MBA, and MBM graduates of the Department of Business Administration under the Faculty of Business Studies of International Islamic University Chittagong (IIUC) is going to be held on 13 April 2018 at IIUC Campus, Kumira, Sitakunda, Chittagong. I think, this reunion will develop a good network and recharge their connectivity for better understanding and relationship. Business graduates are the ambassadors of their Faculty as well as the university. Their behavior, attitude, functions and activities will reflect their learning that they acquired from this university under the slogan "IIUC combines quality with morality".

I consider, IIUC as a higher learning institution of Muslim Ummah. All founders, students, teachers, officials, staff members, other individuals, clubs, civil societies, organizations, and countries who want flourishing of this institution are its stakeholders. I found an opportunity to serve the university under various capacities from Lecturer to Professor, as the Head of Business Administration, the Director of Center for Research and Publication, the Dean of Faculty of Business Studies, and the Chief of Permanent Campus for about 20 years. It's my pleasure that my beloved students of this university are now serving in many reputed organizations at home and abroad. I can easily recall those days I passed with my students and colleagues. How time does fly!

I wish a grand success to all graduates of this university especially of the business graduates under the Faculty of Business Studies. May Allah keep us in His mercy and protection.

## International Islamic University Chittagong Bangladesh

### 1. Introduction

#### Background & History of Establishment :

International Islamic University Chittagong (IIUC) is one of the top graded government approved private universities in Bangladesh. The credit for the idea of establishing this University goes to Islamic University Chittagong Trust (IUCT), which is the founder organization of the University. This Trust, founded in 1992, is a non-political and non-profit voluntary organization, registered with the government of the People's Republic of Bangladesh under the Societies Act XXI of 1860. This Trust felt the need for a university under private initiative considering the absence of institutions of higher learning based on Islamic vision of life in the public sector. With this idea having its origin in 1990, the Trust discussed the concept of a private Islamic university with a group of intellectuals, Islamic thinkers, and educationists from home and abroad. It was these Islamic personalities that came forward to materialize the dream of such an institution by putting their ideas and energies, and fulfilling other requirements. An institution of higher learning under the name of Islamic University Chittagong got the government's approval on February 11, 1995 and the University was founded accordingly in the same year. Thus a long cherished dream of the people of Chittagong came into reality. In the year 2000, Islamic University Chittagong (IUC) was upgraded into International Islamic University Chittagong (IIUC), thus it got a scope to extend its services to the Ummah at large.

In 2004, IIUC was recognized as one of the 9 top-graded Private Universities by a government-appointed High Powered Team led by the UGC Chairman. It is a private university with 459 (Full time: 370 & Adjunct: 85) teachers and 13,000 students from home and abroad. A good number of full-time teachers and students are studying abroad for pursuing higher studies with IIUC's scholarship or financial assistance or continuation of services. The graduation degrees of CSE & CCE are accredited by the BAETE. IIUC grants waiver, generous financial assistance and scholarship to the students at different rates depending on the results of their previous examinations and financial condition. IIUC participated in different national and international contests, winning prizes for obtaining prestigious positions. IIUC successfully organized eight International Conferences on different important issues relating to education, ethics and Islamization of knowledge. It also arranged 'National Computer Programming Contest' (NCPC-2004) in collaboration with the Ministry of Science & ICT and Bangladesh Computer Council (BCC) as part of its regular programs.

## জীবন নদীর জোয়ার ভাটায় মোহাম্মদ এমদাদ হোসেন

শান্ত সরল বালু নদী চলছে উজান বেয়ে  
স্নিগ্ধ সবুজ শ্যামলিমা হারায় দু'কূল ছেয়ে ।  
দূর আকাশে মেঘের ভেলা উড়ে জলের তালে  
দু'চোখ মেলে দেখ সবে নদীর জোয়ার চলে ।  
জীবন জোয়ার ভাটার টানে চলছে পানি সাগর পানে  
দুঃখ সুখের ব্যাথার গানে সবাই আজি দাড়ী টানে ।  
ভরা নদী দুকূল ছেপে ছড়ায় জলের মেলা  
ভাসে কত গাছ-গাছালী চলে আলোর খেলা ।

ঐ যে দেখ গাঁ-গেরামের যৌবতী কোন মেয়ে  
কলশী কাঁকে বসে আছে সদূর পানে চেয়ে ।  
ঘাটে বাঁধা পানসী খানা নাইয়া আসেনা  
নাইউর নিবে কবে আমায় বলে দাওনা  
বাঁশির টানে সদূর পানে দেকে বারে বার  
আসে বুঝি আমার ভ্রমর ঘুচাতে আঁধার ।

ও পাড়ে কোন মা জননী বসে নদীর ধারে  
দুহাত তুলে ডাকেন খোদা সন্তান যেন ফিরে  
কোথায় গেল যাদু আমার কোথায় বুকের ধন  
হারিয়ে গেলে সবাই আমার নেইতো আপনজন  
নদীর ধারে চোখের জলে ঝাপসা তাকান মা  
এইতো এল বাছা আমার ভরিয়ে সোনার না ।

বোঝাই করা নৌকা বেয়ে চলছে উজান মাঝি  
ভাটির দেশের নাইয়া যে সে বলছে গাজী গাজী  
আল্লাহ নবীর নামটি লয়ে উড়িয়ে ধরে পাল  
ঝড় ঝাপটা যতই আসুক চলবে নৌকার হাল  
জীবন নদীর জোয়ার ভাটায় লড়ছে জীবনখানি  
কখন জানি আসবে নেমে আঁধার প্লাবন পানি  
হারিয়ে যাব অতল তলে মালিক সেদিন তুমি  
আল্লাহ আমার রক্ষাকারী দুনিয়া আখের জানি ।

## Let's Reunite!

"And in the end it's not the years in your life that count; it's the life in your years!"

Abraham Lincoln

Yes! That was the life! Life at IIUC! I never thought what we said, what we shared, how we lived would become a frame of memories. But right now I can't but greet those all nostalgic moments that made me what I am today.

When I first stepped onto this campus back in 2012, I had no idea how my stay at DBA would be. At the beginning, it was hard for me to accommodate the differences. But with the passage of time, I started to explore and discover myself within IIUC. It would be unfair if I don't mention the names that played a crucial role in my varsity life. Here I got the life time role models like the ever cool Robin sir, Sohel sir 'the king of Mathematics', the marketing man Shahabuddin sir, Mostafa sir, and Mr. Moula – my inspiration of taking marketing as major and other honorable teachers to whom my gratitude cannot be expressed only in words. More than that, this is the only place where I met "my type" of persons and still now they are my bosom friends. Sharmin, Brinta, Badhon, Xemee, Sanjida, Tasin, Rubama, Sayma, Sadia these are buzzing names with whom I used to freak out louder, attended university picnics from saint Martin to Sylhet, organized programs or even got punished in classes.

In marketing, we all know about the concept "value creation" measuring benefit by cost. But what IIUC costs us is nothing compared with our achievements being a student here. I can still roam around the memories where I along with my five friends took the initiative to make a blast by arranging a workshop on Model United Nations with 60 participants at IIUC female campus. That was just a beginning. We, the Big bang group of six members participated in university's "Hunting Creativity Contest 2014" where we became the champion and I stood as the best presenter. Not only that we represented our university in another Business plan contest arranged by Social Business Youth Network (SBYN) and among 20 groups of different universities, we became the 2nd runner up and another group of IIUC was ranked the 1st. And the most reminiscing program on career counseling was "Branding in the new era" organized by youth marketing club of IIUC, in which my fellow friends and members left no stone unturned to come up with their best. We also got the media coverage from ProthomAlo and Azadi for this type of program. These are few numbers to count but it clearly shows that our university is full of opportunities for both male and female students. Now it is a pleasure for the present and upcoming students to be embraced by good luck that they are now enjoying their study in the largest and spacious permanent campus of a great Islamic Heritage to flourish them and turn out to be brand new remarkable IIUCIANS.

This is not the end! There is more to cherish ahead!! Once again the same buzz, hubbub, and exhilaration are waiting for us on 13th April, the biggest ever dreamed reunion. So what to think for???

Let's Reunite!

# Outliers

The term outlier refers to a person who does work out of common way. Usually we, the common people, think and act in a conventional way but in our society sometimes we find people who are different from us because of their way of working. Basically they are the outliers. We will focus on some of the outliers who have contributed a lot through their words and works for the advancement of the society.

We, the corporate goons, are highly busy with our official staff since morning to late night. We hardly spend time with our near and dear ones, we seldom visit our relatives' houses, and we don't have time to see the bosom friend who is lying in the bed for sickness. We never read books except some business magazines or financial pages of daily newspapers. But it is surprising to know that Bill Gates, Principal founder of Microsoft Corporation, reads almost 50 books in a year. It means 4 books in a month!!! If such a tycoon has time to read books what should we do? But Alas! Except doing corporate slavery we are not doing anything else. We are the common people but not Bill Gates, the ultimate outlier.

Nowadays, while we are in an informal get together with our friends or relatives, in spite of having chit-chat with them, we become busy with our smart phones. Smart phone and internet make our life easy. No doubt about it but over use of smart phone may cause various physical and mental disorders. All of we know Steve Jobs, the most influential tech savvy till now. He did not let his children use Smart phone before the age of fourteen!!! But surprisingly we, the common people, not only use smart phone too much but also let our infants use those in the name of taming them to have food or making them calm. Recently, it has been found through many researches that, the blue ray of smart phone causes serious damage in our eye sight and overuse of Smart phone hinders our logical thinking capacity. Certainly we are not outliers but Steve Jobs.

In this era, we are the victims of Capitalism. We are running after money round the clock. We are earning a lot, it is good sign but the way we spend our earnings are certainly alarming. We always think about ourselves, buy food only for us, and never think of others. We spend a lot of money every month in the restaurant but we hardly donate a single penny for the underprivileged. We are going to build a self centered society where everyone is busy for chasing their own interests. We still recall the greatest philanthropist of Bengal Hazi Mohammad Mohsin. He played a luminous role during the great famine of Bengal during 1769–70 by helping thousands of the victims. He donated almost all of his wealth for the well being of the society. Thus still we recall him with great honor and respect but after our death we are in doubt whether anyone will recall us or not. We are not outliers but Hazi Mohammad Mohsin.

Once Dalai Lama, the spiritual leader of Tibet, visited England. In a morning he was sitting in a restaurant. One female journalist saw him and she took the opportunity to meet and talk to him. She came to him and wanted to ask him a question. Dalai Lama gave her permission. She asked - I would like to know "What is the purpose of life?" In reply Dalai Lama was smiling. He said the answer of this question is easy. He said "the purpose of life is to be happy". Now Dalai Lama wanted to ask her a question. He said "I want to ask you a question", she said "of course sir" then Dalai Lama asked her "Let know what makes you happy?"

To find the answer of this question is very important to be a successful person in all aspects. "What makes us happy"? Is it money, name or fame or something else? The true outliers found it through something else. To be a true outlier we need to find the right answer of this question.

## Planning for Career ?

So, what are you planning next for your career? Planning for a job? Thinking for trying for Scholarship in abroad? Or looking forward to have an MBA?

If you are going to tick the check box of pursuing an MBA, for most of you, this is going to be your terminal degree. So better to take it as a lifetime investment in career. MBA should better not be treated as an academic degree rather as a professional degree. In your MBA program you're supposed to learn some significant texts and at the same time you should get properly tuned up for the professional field. So, choosing the most suitable institution that suits best with your professional purpose is a major decision.

If we try to chart the best Business Schools offering MBA degree in our country, we can note down the below big names:

- IBA, University of Dhaka
- BIBM
- FBS, University of Dhaka
- IBA, Jahangirnagar University
- NSU

I had my first MBA from FBS, University of Dhaka and now pursuing my second MBA from IBA (DU). There's no need to introduce IBA to anyone as it has already become such a brand that if you already don't know about it, then you're actually committing a serious crime!

What is the most differentiating factor of IBA that has helped it to retain its supremacy and legacy for last 51 years? I will say, "Diversity among students". In my class there are around 30 engineers. They are from various specializations; EEE, CSE, Civil Engineering, URP, Navel Architecture, Textile Engineering, Mechanical Engineering, Aeronautical Engineering, Metallurgical Engineering and the list goes on! I have classmates from Carlton University (Canada), Bangalore University, International Islamic University Saudi Arabia, NIT (India). I have also mates from life science faculty, Economics, Literature, Law etc. Two are ex-Marine and ex-Army officer! When brains from all these diverse backgrounds discuss something, trust me, the classroom becomes a galaxy of ideas.

On the other hand, the unorthodox pedagogy contributes a lot in our grooming. Think of a final exam of two hours consisting of 200 MCQ and True-false questions. Or a final exam consisting of a six-hour long case study solving session and a presentation to be prepared exclusively in Prezi. By the way, in grading faculties in IBA follows Normal Distribution Curve. That means even if you score 80 out of 100, you can still fail if you are on the tail of the curve and the majority has scored above 90. In general, our top grade starts from 90+ and we fail if we score below 60 in any course! So, pretty tough to cope up. In my last two semesters' journey, I've attended multiple classes from guest lecturers who are CEOs of giant names of corporate realm.

I have written all these to inspire you to jump for the best. To get the best you also need to give your best shot. That is why it is really a tough task to get admitted into IBA. But the overall preparation will also help you to ace any recruitment exams in Bangladesh. So, it's worthy of your valuable time. Now I will try to discuss the strategy in a nutshell.

First of all, you need to understand that IBA produces future Managers, not executives. Managers are like Jack of all trades, master of none! Similarly, in preparing for IBA you need to be the jack of all trade. You need to show your competence in English, Math and Analytical ability in a balanced way.

For English you must study Grammar rigorously. It's risky to depend on your intuition in solving grammatical questions as we have been using English both in communicating and writing in a very informal way throughout our life. Secondly, you must increase your reading habit. This will help you to relate the newly learnt grammatical structures and at the same time, will help you to enrich your vocab. Cliffs TOEFL and GMAT Club grammar book are my favorite for grammatical study. You can practice Sentence correction and Error identification problems from Barron's SAT and Official GMAT.

In the Math section you will actually be given some standard problems equivalent to those of class 8 and 9. Maximum level of practice is the best strategy for this section. Choose the convenient one between Mentor's Math Q-Bank and Saifur's Math. Study the theoretical discussions of each topic to understand the concepts.

For Analytical Puzzle GRE Big Book is the best resource to practice. For Data sufficiency and Critical Reasoning, you can take help from Official GMAT.

Before jumping for the preparation, I will suggest to first analyze the previous year questions. This will give you a proper insight and will provide you a proper outline.

For the writing section you should work on your spontaneous way of writing. The given topics will be from very common issues. This section judges your writing accuracy and thinking clarity, not your literary skills! You can read the Editorial of any English daily newspaper and later on you can summarize it in your own language. This will help you to develop both your reading and writing skill.

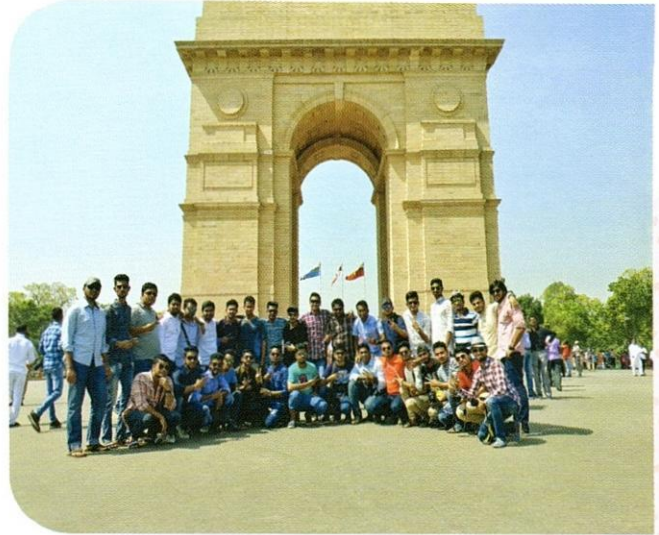

This one guideline is applicable for any post-graduation entrance exam in our country. Simultaneously, it will help you in preparing for bank recruitment tests.

The 60th intake of IBA MBA will hopefully be on first week of June. Better to start preparing from this very moment. Hope to see some faces from IIUC in the corridor of IBA very soon. In IBA we welcome our juniors by saying "Welcome to the Roller Coaster!". I will say, this roller coaster journey is an experience of a lifetime that is going to reshape your whole life. So, are you ready to ride one it?
